Subject: Regional Priorities

As in the past, we find our selves with new leadership. We previously have gone through a series of exercises to determine the Regional Administrator Priorities. I would like to do this in a more streamlined manner that takes full advantage of the program knowledge and experience of Sr Staff. To that end, I am requesting that each Division prepare a list of priority activities.

1. Senior Management Measures - Activities that are routinely tracked at the Deputy Administrator level
2. ACS Measures - Programmatic activities that are tracked by each NPM
3. Special Program initiatives - Activities that support a specific Administrator Priority Area where we join other Regions or HQ to implement.
4. Regional Initiatives - Activities that support a specific Administrator Priority Area where only Region 6 is working to implement
5. Base Program - Activities that required by statute that are not captured in any of the above.

I want to present Ron with these ongoing activities along with the following

1. Your recommendations on where we can redirect resources to better implement the Administrator's Priorities.
2. Activities that seem to be needed but do not have a home or resources to implement.
3. Efficiency measures that can help make the Region work better.

I know the temptation is to simply ask the RA to give you his priorities.

Samuel Coleman, P.E.
Deputy Regional Administrator, Region 6
